RESERVES READY TO STOP ENEMY

Italians Have Large Forces at Important Points Back of Battle Front, it is Announced

SITUATION MORE FAVORABLE

Danger in the Montello Sector is Greatly Lessened Today, London Advises Say

THREE ATTACKS REPULSED

Between Brenta and Astico River, Enemy Gains Are Again Reduced by the Italians

(By United Press.)

London, June 19.—The Italians have large forces of reserves at important points back of the battle front should the Austrian drive become seriously menacing, it was learned today.

The Italian situation is regarded as more favorable than it was yesterday.

The danger in the Montello sector is greatly lessened.

Between the Brenta and the Astico river, Austrian gains were again reduced.

Three Austrian attacks were repulsed between the Brenta and the Piave.

With the Italian Army in the field, June 19.—The enemy has failed to make any impression on the mountain front and the fighting is centered at Montello and along the Piave.

The Austrians are constantly throwing in reinforcements and are fighting hard to pierce the Italian river lines. The Italians counter-attacked immediately after every attack. Between Valdassa and Mount Tomba, a third of the Austrian stormers were dead between their original trenches. The Italians repulsed nine assaults with fresh troops.

Three enemy divisions crossing the Piave on hastily constructed bridges, have been hemmed in.

With the Americans in Lorraine, June 19.—The first American gas projector attack was launched against the Germans north of Toul this morning, evidently causing heavy casualties.

The Boche casualties were increased when in attempting a retaliatory attack, the wind blew the German gas back into their own trenches.

American engineers, using American made projectors, discharged a thousand American made gas shells into a German area. The projectors were fired by electricity.

Paris, June 19.—A desperate German attempt to take Rheims at any price last night was blocked by the defenders, the French war office announced today.

The assault was made on a 15-mile front between Vignay and Fort La Pompelle, forming a complete semi-circle about the city on the north. Thirty-six thousand Germans participated in the attack.

Between Vignay and Ormes the Germans were stopped by the French fire and hurled back several times. They were unable to reach the French lines anywhere.

144 Casualties Reported

Washington, June 19.—The war department today announced 144 casualties divided as follows:

Twenty-eight killed in action, twelve dead of wounds, eight of disease, five of accident and other causes, eighty-eight wounded, one missing in action and two taken prisoners.

AGREES TO SUPPORT WIFE

Stanton V. Cram, Arrested at Anderson, Is Released on Bond

Stanton V. Cram, who was arrested at Anderson yesterday morning on a charge of failure to support his wife and child, was brought here yesterday evening by Sheriff Jones, and when arraigned before Judge Sparks this morning in circuit court, agreed to pay \$8 a week towards their support. He gave bond for his appearance for a hearing of the case next term of court and was released and returned to Anderson. He said his wife left him and came here.

ORDER NUMBERS TO BE ASSIGNED SOON

Construction Placed on Order That Registration Numbers Shall Not Be Given Late Registrants

LATE MARRIAGES AMENDMENT

The local army board has been instructed by the provost marshal that if any other young men becoming 21 years of age since June 5, 1917, are registered, they should not be given registration numbers. This is regarded as meaning that order numbers for the new group of registrants will be assigned shortly and then questionnaires will be forwarded to the board for mailing to them. The board has received a copy of the amendment to the selective service regulations regarding late marriages, which was mentioned in Washington dispatches a few days ago. It is construed by the board here to mean that the marriage of any of the last group of registrants after Jan. 15, 1918, the date of the introduction in congress of the resolution providing for their registration, will be disregarded as a claim for deferred classification. Registrants of the same class who were married after the passage of the selective service law, May 18, 1917, but before Jan. 15, 1918, and claim deferred classification for dependency, will be placed in class two if the dependent is a child of the marriage, born or unborn prior to June 9, 1918.

U. S. TROOPS WANTED ON THE ITALIAN FRONT

General Pershing Will Determine Whether They Can Be Spared to Counteract Propaganda

AMBASSADOR SEES BAKER

(By United Press.)

Washington, June 19.—General Pershing is to determine whether thousands of American troops may be spared from the western theatre for transportation to the Italian front it was learned today.

Italian Ambassador Discallere in a personal conference with Secretary Baker, emphasized that the advantage of the Italians against the Austrians would be to discourage the invaders, who have been fed up Germany with the propaganda that the United States is not in sympathy with Italy.

SUBMITS A PEACE TREATY

King Ferdinand Says Further War Would Have Exhausted Roumania

Amsterdam, June 19.—Roumania made peace because to resist further would have exhausted the country to the point of destruction, said King Ferdinand in his speech from the throne at the reopening of the Roumanian parliament at Jassy, Monday. The peace treaty was then submitted to the legislature for approval.

PLANS MADE FOR INTENSIVE DRIVE

War Savings Stamps Officials Start Campaign to Raise Remainder of Year Quota by June 28

DISTRICT CHAIRMAN IS HERE

Union Meetings to Boost W. S. S. Here Sunday Night—Thrill Stamp Sermons Sunday

The headquarters of the Rush county War Savings Stamp pledge forces was bustling with excitement today as the committeemen formulated plans for one of the most intensive drives which Rush county has promoted since the beginning of the war work.

The fact that Rush county's entire War Savings stamp quota must be raised by June 28, according to a decree of the government, has tended to speed up the work, especially since this county has more than two-thirds of their year's quota of \$385,000 to raise before the "zero day"—June 28. The official current report for the state shows sales in Rush county to June 8 amounted to \$102,179.50, a per capita sale of \$5.26.

John A. Tittsworth, county chairman, assisted by the district chairman, A. B. Ayers, spent the afternoon visiting the executive committees of the latest Liberty Loan drive who will conduct the canvassing campaigns in the various townships, and at the office of the county chairman, extra stenographers were employed, getting out letters of circular nature as well as personal letters to various county workers, emphasizing upon the minds of the people the necessity of active co-operation on the part of everyone.

Plans for a union service on Sunday evening in behalf of the campaign, the most intensive days of which will take in the scope of time from June 24 to 28, are being made and an attempt is being made to secure a speaker of nation wide note to address the meeting. Every minister in the city has been asked to deliver a Thrift Stamp address to the members of his congregation on Sunday morning and this effort with the meeting in the evening is expected to deal efficient blows in destroying the great unconcern which has caused the sale of stamps to lag in this county.

Committees, named especially for the securing of large subscriptions, are being arranged and will begin their work the latter part of the week. The fact that small subscriptions have been accepted from people who are able to furnish large pledges is attributed as a partial reason for the slowing up of the sale here and it is the purpose of War Stamp officials here to secure as many thousand dollar pledges as possible during the final days of the campaign.

"It is necessary for the moneyed men of the county to subscribe for thousand dollar subscriptions—for \$750 \$500, and \$250 subscriptions—if the drive is to be put over," declared District Chairman Ayres today in his visit through the county. It was in this manner, declared the manager, that Fayette county was able to make the brilliant record which not only subscribed the quota for the year, but also an excess of \$70,000.

COAL CONSUMERS MUST BUY WINTER SUPPLY NOW

Consumers must buy their winter supply of coal during the Spring and Summer for storage if production is to be maintained at a maximum and the country enabled to avoid a serious coal shortage this winter.

HOMER COLE NAMED A SCHOOL TRUSTEE

Elected by City Council For Term of 3 Years, Beginning August 1, to Succeed Bert Mullin

MAY BUY MORE TRAFFIC POSTS

Council Will Investigate Prices Before Purchasing More—to Pay Half on Drinking Fountain

Homer Cole was elected a member of the city school board last night by the city council for a term of three years, and will succeed Bert Mullin. The remaining members of the board are L. L. Allen and Dr. Frank M. Sparks. Mr. Cole's term begins the first of August.

The council discussed the need of traffic posts in the residence district, and finally a motion was made that a committee from the council be instructed to buy twenty posts. This means that fourteen, in addition to the six already stationed in Main street will likely be ordered. A committee will investigate prices and determine where they can be bought the cheapest. The six now in use were made at a local foundry as samples, and since they have been turned out, a Crawfordville firm which is in the business, has made the city a better offer.

The advisability of putting traffic posts at street intersections in the residence district was questioned by Councilman Scudder. He wanted to know how it would be possible to determine the center of the street when a few streets crossing Main, for instance, jog and make it awkward for a motorist to make a turn. The argument of the councilmen in favor of the traffic posts was that the posts were essential not only to keep automobiles on the right side of the street, but to compel drivers to slow down at turns, preventing them from speeding around and cutting corners.

A contract with the county, drawn up by the city and county attorneys, relative to the installation of a motor-driven pump on the well on the court house square, to supply a drinking fountain, was submitted to the council, but an objection was raised because it was provided therein that the city should keep the apparatus in repair. It was pointed out that the superintendent of the water and light plant and his assistants now have more than they can do, and that they would not have time to watch the repairs.

The upshot of the affair was that the council voted to appropriate \$115, approximately half the cost, to pay its share for the purchase of the pump, fountain and electric motor, and their installation. If the county is willing to look after repairs, the drinking fountain will be installed. The agreement called for the electric current to operate the motor being measures through the court house meter and paid for by the county.

A. R. Herkless asked the council for the payment of street improvement bond coupons due June 1. The city treasurer had not taken up the coupons because the fund to pay them is about \$145 short. The shortage was explained by the city treasurer to be due to the prepayment of street assessments, which resulted in the loss of interest. This difficulty arises because of a state law which allows property owners to pay street improvements in advance and save the interest. The council voted to take up all coupons possible with the money in the fund and postpone appropriation of the deficiency until next meeting.

The funeral services of James O'Dell who died at Craigmont, North Madison, Ind., yesterday, will be held at the Christian church at Sexton tomorrow morning at ten o'clock and burial will take place in Little Blue River cemetery.

MAVERNE BREEDING DIES

Succumbs to Tuberculosis at Her Home Here Early Today

Following an illness of several months of tuberculosis, Mrs. Mavrine Bebout Breeding, died this morning at four o'clock at her home at 803 North Morgan street.

The deceased, who was 31 years of age, was well known in this city where she had spent most of her life. She is survived by her husband, Roy Breeding, who is in military training at Camp Shelby, Mississippi, one sister, Miss Ethel Bebout, and three brothers, Silvertown, Harter and Russell.

PRICE OF LABOR FOR THRESHING ADVANCES

Engineers Demand \$5 a Day in Comparison With \$3.50 Years Ago And Separator Men Ask \$4

COMMITTEE TO LOCATE MEN

The price of farm labor both skilled and unskilled has loomed up as a larger expense item in the farm work during this harvest season and on every hand the price of labor for the threshing work has increased from a dollar and a half to two dollars a day.

Engineers for threshing have placed their price at five dollars a day this year in comparison with \$3.50 two years ago. The price of labor among the separator men has also advanced considerably over the prices of two years ago. They are to receive four dollars this year, which is an increase of between a dollar and a half and two dollars.

The threshing committee composed of Marion Detrick, county agent; M. F. Lovett, county food administrator and Fred Lightfoot has secured blanks for the farmers desiring help during their threshing season to fill out, if they wish to employ men to operate their threshing outfits. These blanks may be obtained at the office of the county agent in the court house.

TURKS ATTACK AN AMERICAN HOSPITAL

Occupy Cabriz, Perisa, Taking Possession of the British and United States Consulates

MAY PROVE TO BE ACT OF WAR

(By United Press.)

Washington, June 19.—What may prove to be an act of war against the United States occurred at Cabriz, Persia, when the Turks took that town, occupying the American and British consulates and attacking the American hospital, according to reports reaching the American minister at Teheran.

The flag of Spain was flying over the hospital and the Spanish counsel, representing the United States interests in Cabriz protested against the looting.

INDIANAPOLIS MAN IS HURT

Albert Bardes Injured When Troop Train is Wrecked at Bridge

Waco, Tex., June 19.—Thirty-four soldiers were injured near Selby, Tex., yesterday, when a St. Louis & Southwestern railroad train, carrying troops stationed at Camp McArthur was wrecked while passing over a wooden bridge. The engineer and two firemen also were injured, probably fatally. August Hans Schuppacher died at the base hospital.

Military authorities at Camp McArthur late made public the names of thirty-two soldiers injured.

LAUNCH MOVE TO RE-ELECT WILSON

Temporary and Permanent Chairmen of Democratic State Convention Say Situation Demands It

PLATFORM DECLARES FOR HIM

Immediate Purpose of The Democratic Party is to Win The War, Says the War Plank

Decatur Man Heads Ticket

(By United Press.)

Indianapolis, Ind., June 19.—Herman Confer of Decatur was chosen democratic candidate for secretary of state at the convention this afternoon and will head the state ticket at the coming election.

His nomination came after a hot fight during which it was necessary to call in the police to settle a dispute in the Marion county delegation.

William Denprey who opposed Confer, moved that the Decatur man's nomination be made unanimous and the motion was carried.

William Jones of Fairmount was chosen candidate for auditor over Thomas Hecker of Indianapolis. There was another scrap among the Marion county delegates.

Indianapolis, Ind., June 19.—The movement for re-election of Woodrow Wilson as United States president in 1920 was launched at the democratic state convention here today.

Samuel M. Ralston former governor was the first speaker to declare for Wilson's re-election. Ralston, permanent chairman of the convention, declared that he believed the exigencies of the situation demanded the re-election of Wilson.

"Stand by the president," was the ruling note of the convention expressed in the speech of Vice President Marshall, temporary chairman, and in the platform.

"The future presents the supreme test of American statesmanship," declared the platform, "and we submit that the people can best trust the wisdom of President Wilson and those who stand with him; who have shared with him the unparalleled accomplishments of the last six years."

"Therefore we commend to the serious consideration of the people the election of senators and congressmen in complete harmony with the president, primarily upon the policies of the war; but equally in accord with him in questions of vital domestic concern."

The war plank of the platform which was drafted under the direction of President Wilson, declared:

"The immediate purpose of the

Find Strange Bird And Call It "Kaiser's Goose"

Because of its distinct alien attitude to Rush county surroundings, the foreign specimen of a goose which was found yesterday crouched in a corn field on the Joseph Hildreth farm southeast of New Salem, has been named "the kaiser's goose" by residents of the neighborhood.

The goose cannot be identified with another of similar markings in the neighborhood. It is much larger than the usual size goose and is jet black, with the exception of a wide white stripe about its neck. The bird was unable to make its escape when Benjamin Hildreth came upon it because all of its feathers had been pulled out of one of its wings.

ANNUAL MEETING OF G.A.R. ARRANGED

During Week of Aug. 18 Grand Army Men Will Gather at Portland, Ore., For Convention

RATES HAVE BEEN OFFERED
 Trip From Every Part of the Country to Convention Scene to be Made at Reasonable Price

Rush county members of the G. A. R. and the Woman's Relief corps organization who although they attended the national conventions of the organization in former years when the meetings were held closer to home, are viewing the special rates which have been made for the trip with favor.

The convention this year will be held the week of August 18 in Portland, Ore., and a recent letter from the adjutant general of the national organization, Robert W. McBride contains the following announcement concerning the trip to the convention:

"The rate allowed is one cent per mile for the round trip. This rate is open to members of the Grand Army of the Republic and Women's Relief Corps, Ladies of the Grand Army of the Republic, and Sons of Veterans' Auxiliary, and National Association of Army Nurses of the Civil War. Also to members of the families of any of those organizations. Purchasers of tickets can have a choice of routes, both going and coming: can go by one route and return by another; with unlimited stopover privileges west of St. Paul, Minn. The tickets will probably be on sale about August 1 (the precise date has not yet been fixed) and they will be good for sixty days from the date of sale.

"In addition to the foregoing there is a war tax of 8 per cent on the somewhat effect the Pullman rates, are at this time \$13, to which should be added ten per cent, making \$14.30 from Chicago to Portland. It is possible that the recent order permitting an increase of fares, may somewhat effect the Pullman rates, but as to this I am not as yet informed. In order to purchase tickets those entitled hereto must present to the railroad ticket agent a certificate, forms for which are being prepared and will be sent to local organizations for issue."

TO PREVENT LOSS IN SHIPPING OF FOOD

Shippers Asked to Provide Crates, Barrels, Hampers and Baskets For Perishable Products

SHORTAGE OF CONTAINERS

Washington, June 19—Shippers of perishables and manufacturers of containers should act immediately to prevent food losses this season by providing crates, barrels, hampers and baskets for perishable products in time for the shipping season. The United States Department of Agriculture advises. Manufacturers will be greatly aided if shippers and growers will order now instead of waiting until the shipping season begins in their locality. This will prevent plants shutting down and help to utilize every facility and worker of the manufacturer.

The threatened shortage of containers is general both in territory and in types of packages. Bear in mind, says the department, that perishable fruits and vegetables marketed in containers are to a large degree substituted for the staple foods now being sent to feed our soldiers and the people of the Allies. Perishables wasted here lessen the supply "over there."

—Dr. D. Ira Lambert has gone to Columbus, O., where he will officiate at the marriage of his niece tomorrow and spend several days there, the guest of his mother, Mrs. D. W. Lambert.

—Miss Carla Doran has returned from Muncie where she spent the winter attending school and will remain at the home of her parents, Mr. and Mrs. Bruce Johnson, during the summer.

VETERAN WORKERS SEEK FARM LABOR

Men Who Carried on Red Cross and Liberty Loan Drives Will Assist Farmers

MUST BE CLOSE CO-OPERATION
 Commercial Organization to Secure Pledges of Men Willing to Devote Part of Time to Farming

Washington, June 19.—Organizations that so successfully conducted the Third Liberty Loan and Second Red Cross campaigns are now working in co-operation with farm-help specialists of the United States department of agriculture in many cities to find workers with farm experience to help farmers harvest the wheat crop. Other organizations in cities, towns, and villages are also uniting their efforts to aid in this work. If the wheat is to be saved, and other needed farm work done, there must be closer co-operation between the town and country, according to the department of agriculture. Non-essential industries must permit their employees, who have had farm experience, to go to the country and help during the harvest season.

Commercial organizations should secure pledges from men who are willing to devote a few days or weeks of their vacation in the harvest fields and should see that these men are placed when and where they are most needed, suggest officials of the department of agriculture. City Y. M. C. A.'s, athletic clubs and country clubs should open their doors to these men and give them an opportunity to take physical exercise that will prepare them for labor in the fields. And women's organizations should volunteer to go to the country and help prepare meals for the army of harvest laborers, and in other ways lighten the tasks of their rural cousins.

The plan which is to be followed is to bring about co-ordination of effort on the part of every agency engaged in securing farm labor. At a meeting held in Kansas City recently, which was the first of a series planned by the department of agriculture, a committee was appointed to formulate plans and policies for the organization of the various forces in the State so that the needs of the farmers may be met in an adequate way.

It is recognized that many men now in offices, stores and in banks and engaged in other city work would in their present condition be unable to go into the fields and withstand severe labor. It was therefore proposed and arrangements were made at the Kansas City conference for all such men who register for farm work to take a special course in training under the direction of the Kansas City Athletic Club. Here is an opportunity for similar clubs, Y. M. C. A. and country clubs of other cities to render definite service in connection with the farm-labor problem, say department officials.

When this army of harvest laborers is taken from the cities to the harvest fields a large additional force will be needed in the farm homes to prepare meals for them. It is estimated that in Kansas alone 80,000 men will be taken to the harvest fields. With this in mind it was recommended at the Kansas City conference that a campaign be waged to enlist women of the villages, towns, and cities to go to the country and assist the farm women in their work as men are assisting the farmers. It was felt by all that it would be possible to secure the services of many thousands of women to assist in this big work. In many instances there are school boys unable to pitch wheat, who could be used to peel potatoes, carry water, wash dishes and help in other ways, and it was planned to enlist a large number of such boys to assist in this work.

The class of 1918 Valparaiso High school War Savings society at its last meeting before graduation, reported \$421 had been invested in War Savings. This class which has just graduated has sent nearly all the boys into some branch of Government service and the girls are also working in every way they can to help the Government.

Sensible Economy

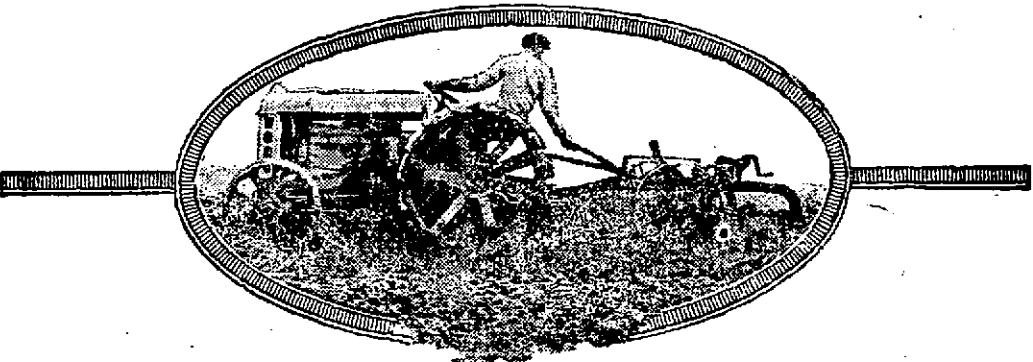

Uncle Sam has proclaimed sensible economy to be the BUY-WORD of every woman in the country. The women of America will support his sensible movement by making with their own hands the dresses their children wear.

The women of the United States have taken up the needle and have turned seamstresses. It is the height of economy to buy

LaPorte Dress Fabrics

for the little ones. Not only can you secure an individuality of design, coloring and material, but you receive double value in service, durability and quality. Our line of Gingham, Chambray, Knickerbocker Suits, and Beach Cloths are unexcelled for tots' wear. It is with a sense of assurance that we unhesitatingly recommend this line to the economical and discriminating purchaser and we invite your early inspection of this varied, tasty and attractive assortment.

The Fordson Tractor

The Fordson tractor, manufactured by Henry Ford & Son at Dearborn, Michigan, is here.

Hundreds of farm owners in this community will be interested in this announcement—in knowing that Fordson tractors are ready for distribution.

The urgent need for greater production and the vital necessity of employing man-saving machinery in farm work is apparent to everyone. Remembering these immense tasks ahead, the coming of the Fordson is of importance to every farm owner at this time.

The Oliver No. 7—the Plow for the Fordson

"We appreciate the co-operation the Oliver Chilled Plow Works have given us in designing the proper plow for the Fordson Tractor."

"We know that with the Oliver No. 7 plow the Fordson will work to the very best advantage."

[Signed] Henry Ford & Son

Oliver No. 7 has been built for the Fordson.

Oliver No. 7 is strictly a one-man machine. A trip lever right at the operator's hand raises or lowers the bottoms. An even depth adjustment lever is right at hand, too.

You will appreciate the high clearance of plows and beams because they save time and annoyance—just as the rake between bottoms prevents clogging with trash and makes every second of operating time count in plowed ground.

The Oliver No. 7 embodies principles of plow construction founded on sixty years of making plows, of intensive study of every existing soil condition—and constant attention to the plow requirements of the tractor since the tractor industry began.

Come in and see this complete outfit—the Fordson and the Oliver No. 7 Plow.

TO LOCATE ENEMY OWNED PROPERTY

Effort to Obtain Information Concerning Property Owned by Germans is Inaugurated

BY PROPERTY CUSTODIAN

Includes Property, Money, Chattels, Securities Land and Accounts Belonging to Alien Enemy

An effort to identify and locate all property in the state, owned by "enemies" or "allies of enemies" has been inaugurated by the Indiana State Council of Defense, at the request of the Council of National Defense, representing the federal Alien Property Custodian, A. Mitchell Palmer.

A special bulletin addressed to county councils of defense, enlists their assistance in the movement. The county councils are asked to collect, at once through township councils and such other agencies as may be available, all information and transmit it to the state council as rapidly as secured. For the in-

formation of investigators, the state council bulletin says:

"The term 'enemy' as here used includes every person now living within, and every company incorporated within Germany, Austria-Hungary, and all territory occupied by the armed forces of the Central powers. Similarly the term 'ally of enemy' includes every person now living within, and every company incorporated within any of the allies Germans and Austro-Hungarians Residence, and not citizenship, is the determining factor. Germans, Austro-Hungarians, Turks, etc., residing in the United States are not by reason of their nationality considered 'enemies' or 'allies of enemies.' Germans and Austro-Hungarians held in the custody of the War Department are included within the term 'enemy'; and Americans in Bulgaria or Turkey or in territory occupied by their forces are included in the term 'ally of enemy.'

"Enemy-owned property includes all kinds of property, tangible or intangible, money, chattels, securities, lands, accounts receivable, etc., belonging to an enemy. If the property is held in the name of another—by a dummy or in trust—it is enemy property, provided the beneficial interests belong to an enemy."

BOOKS ARE WANTED FOR CANTONMENTS

Rush County is Again Called Upon by Local Committee to Send More Reading Material

BOOKS OF STUDY AND FICTION

Lest Rushville people forget that there are still urgent calls from every cantonment in the country for more books of every description for the soldiers library, the committee in charge of the collection of books here has issued another appeal to people asking them to bring books for the cantonment libraries to the public library in the court house.

Although the response from Rush county has been fairly good, there has not been that generous response which is necessary to supply the needs of the men and as a result another call is being made. The army library movement is a constant thing and the committee has voiced an urgent desire that in the future the public will give more freely than it has up to date. Books for study as well as fiction are desired in the cantonment libraries.

Our National Mistake

While disaffection and disloyalty
are at a minimum in this country,
still looking into the past we can see
a mistake which the country has
made that is almost wholly responsi-
ble for what of disloyalty exists
among American citizens.

If when, in spite of the earnest
efforts of our government, war was
forced upon us, we had accepted the
challenge in the right spirit, much
misunderstanding might have been
averted. We should have accepted
the gauge of battle as wholly un-
avoidable. We should have seen,
which many of us did not, that if
American institutions were to be
maintained, war was the only means
of maintaining them. Viewed in this
light, there could be no question as
to the duty of every citizen. That
duty would have stood out most
plainly—loyalty to one's country
and her institutions, or Treason.

Instead of thus accepting the in-
evitable, however, we in our old Am-
erican way at once began to argue
and dispute over the right of our
government to enter a "foreign"
war; never realizing, in our blind-
ness, that this so-called "foreign"
war was as much our war as it was
any other nation's. We should have
seen that the ultimate object of the
effort of Germany was aimed at the
vitals of America—that we were
singled out for the supreme sacri-
fice, to be the German banker at the
beck and call of her military des-
potism, from whom she expected ul-
timately to collect the enormous toll
of money that the holocaust should
cost her.

But we have been for a year de-
bating as to the rights of our gov-
ernment, first over the lives and ser-
vices of our boys, then as to its
rights to the services of our money
and our property, all the time losing
sight of the basic fact that not only
did all that we possess belong to our
government in its need, but that we
ourselves are but the creatures of
that government, without which
there would now be no American
people as we see them. We have
lost sight of the fact, to some ex-
tent, that our very First duty is to
government, as without it all rights,
privileges and benefits come to
naught.

We have made the mistake of ad-
mitting that the question of duty to
our government could even admit of
debate. The question is not debat-
able. It is as one-sided as is that
of the right or wrong of murder,
arson, theft or any other human
transgression. The disloyal man is
as plainly in contempt of law as is
the murderer, the thief, or any other
criminal. There can be no other
view of the question, because in any
other view lies the seeds of anarchy
and the destruction of all law. And
law is the only force that earth has
yet discovered that will hold nations
together.

Drive the truth home to every
man, that his very citizenship car-
ries with it an iron-bound obligation
to render his all, if demanded, to his
government whenever the emergency
arises.

What Have You Given Up?

Have you given up your job, and
let your business future take care of
itself?

Have you said good-by to your
family and friends and all you hold
dear?

Have you begun an entirely new
career that may end, if you live, with
health impaired, and arm off, a leg
gone, an eye out?

Have you given up your business
future and said good-bye and taken
a chance on coming back alive and
well, and done it all with a cheerful
heart and with a grim determination
to do all you can for your country?
And do you only at times—in the
evenings, perhaps, when the light in
the sky slowly fades away—feel so
homesick and so lonesome that you
are fearful you will not have the
courage to do your part after all?

You have not done these things?
Then you are not one of our army
or navy boys; you are a stay-at-
home person.

Well, there have to be 20 or more
stay-at-home persons for everyone
who goes, and so certainly no dis-
grace attaches to being one if you
fully support them to the limit of
your ability.

National War Savings Day is June
28. That day gives you the oppor-
tunity of showing in a practical way
that you do appreciate what it means
to the boys who go. Pledge your-
self on or before that day to save to
the utmost of your ability and to buy
War Savings Stamps that there may
be more money, labor, and materials
to back up those who fight and die
for you.

Too much importance has been
given to Thrift Stamps. They are
all right in their place. But do not
make a mistake of thinking you have
done your duty when you have
bought a Thrift Stamp, when you
should have bought a \$5 U. S. S.
There is no patriotism in trying to
deceive yourself and your govern-
ment.

Should the German language be
taught and studied in America?
Perhaps not just now, but one of
these days "kultur" and "spurious
versenkt" and "schrecklichkeit" will
be blotted out of it, and it will take
its place among the world languages
again.

Khaki or jeans are the spring
materials offered to men of 21 to 31
for their selection. There is also a
third style—horizontal stripes but
we predict this will not be popular.

Five-ton tractors are to be used in
place of horses for bringing up field
artillery. Any method of speeding
the war is acceptable.

Iris and peonies and roses and
June brides. Quite the loveliest
things in the world, and all bloom-
ing this month.

The Allies are past masters in the
art of retreating in good order.
When they advance it will be in still
better order.

Amusements

Norma Talmage Here Tonight

Norma Talmage will be seen at
the Princess tonight in "The Moth,"
said to be the best effort of her
career. It is a dramatic story well
developed. Pathe News also will be
shown tonight. Thursday Dorothy
Dalton will be here in "Love Me," a
modern society drama. Friday Doug-
las Fairbanks will be seen in "Mr.
Fix-It."

Anaemia and Poor Blood

How Mrs. Burnell's Daughter Re-
covered

Drewsville, N. H.—"My daughter
was anemic, had poor blood and
suffered from indigestion and bilious
attacks. As Vinol had built up my
son some time ago, I gave it to my
daughter—he soon improved in
health, and it has built her up and
restored her health."—Mrs. N. Bur-
nell.

The reason Vinol was so suc-
cessful in Miss Burnell's case is be-
cause it contains beef and cod liver
peptides, iron and manganese pep-
tonates and glycerophosphates, the
very elements needed to build up a
weakened, run-down system, made
rich red blood and create strength.

Eight Cylinder Touring Car

The Eight Cylinder Oldsmobile occupies distinctly a place of its
own in the ranks of motor cars. Attractive in design, remark-
able for completeness of appointments and refinement of finish,
it combines unusual power with ease of operation and economy
of maintenance. These with many more good qualities assures
the owner satisfaction far out of proportion to the moderate
investment. Such a car will be a source of happiness, service
and pride for many years.

A Purposeful Formula

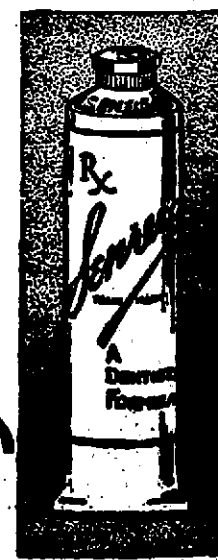

Senreco's formula is not "just a little of this and a little
of that."

It was devised with a definite object in view.

The object was to produce a tooth
paste possessing medicinal as well
as cleansing properties—a real
cleanser that could be depended
upon to remove tartar and keep
mouth and gums healthy.

The ideal defined, our labora-
tories set about to determine the
proper combination to produce it.
Senreco is the result. It has been
tried, tested and pronounced good
by hundreds of the profession. Try
a tube. A single tube will prove
every claim. Will show why thou-
sands today use and demand Sen-
reco—and are satisfied with noth-
ing less. All druggists and toilet
counters. Large 2 oz. tube—35c.

WORKING RESERVE SCHOOL OPENS

Rush County Boys Between Ages of 16 and 21 May Enter Purdue For Agricultural Course

C. M. GEORGE IS CHAIRMAN

Plan is to Give Boys Two Weeks Training Course to be Followed by Work on Indiana Farms

With the announcement that an agricultural training camp for Indiana boys who are members of the United States Boys' Working Reserve, numerous Rush county boys between the ages of 16 and 21 are making inquiries from reserve officials concerning entry into the camp.

One hundred boys will be admitted to the school for two weeks intensive training, after which they will be given work on Indiana farms. This class will be followed by another group, of one hundred boys who will be given similar training. If the plan is successful, which doubtless will be the result of the experiment, the school will be continued until the middle of August.

In order to be eligible the boy must be between 16 and 21 years of age and must have a written consent of his parents to accept employment on a farm at the termination of a course for at least four weeks. Boys who are already engaged in agricultural work will not be eligible for the camp at this time, the idea being to secure at least one boy from each county in the state, who is either idle or engaged in some non-essential employment. Inquiries should be directed to C. M. George.

The boys will live in fraternity houses at Purdue University and will be in charge of Doctor Stanley Coulter, dean of the School of Science of the University. They will receive instruction in agricultural work from members of the faculty of the Purdue Experiment Station. They will be under strict military discipline, and for the purposes of physical development one period each day will be devoted to military drill. A Y. M. C. A. boys secretary will direct affairs pertaining to their moral welfare.

Boys will pay their own railroad fare to and from Purdue, or, if they are unable to do so each local County Council of Defense will be expected to provide transportation. Board will be furnished free of charge at the camp by the U. S. Boys' Working Reserve.

Boys who can play any musical instruments are particularly urged to apply for this camp, inasmuch as it is expected to organize a band.

Isaac D. Straus, Federal State Director of the U. S. Boys' Working Reserve, has secured an appropriation from Washington to defray all expenses and Purdue University has agreed to use its regular machinery at the Experiment Station for giving the boys such training as will enable them to help substitute on Indiana farms for older men who have gone to war.

COLLEGE ATTENDANCE IS EFFECTED BY WAR

According to Figures Covering Most of the Western Institutions, Decrease is from 5 to 33 Per Cent

Chicago, June 19.—Probably the most noticeable effect of the war on American colleges is the sudden falling off of attendance. This has varied from 5 to 33 per cent according to figures covering most of the central western institutions.

A number of college heads have reported that the slump in enrollments would have been greater had it not been for the unusual influx of men below draft age, bent on securing knowledge benefiting military men and for the women students preparing for wider participation in the world's work.

Instructors for the most part are optimistic. While war has made big inroads in attendance and in some cases cut tuition receipts badly, there is a feeling that the students now at work are bending more seriously to their tasks.

No. 1

CONSERVE SURPLUS FOOD—THAT IS A BIG DUTY OF HOUSEWIVES

A PLACE FOR SURPLUS TIME.
Everybody can! Put your spare time into cans and jars.
Home canning is kitchen patriotism.
Don't have an empty preserving jar in your neighborhood next fall. If you have more preserving jars than you can fill lend them to a neighbor who will make them work for the Nation.

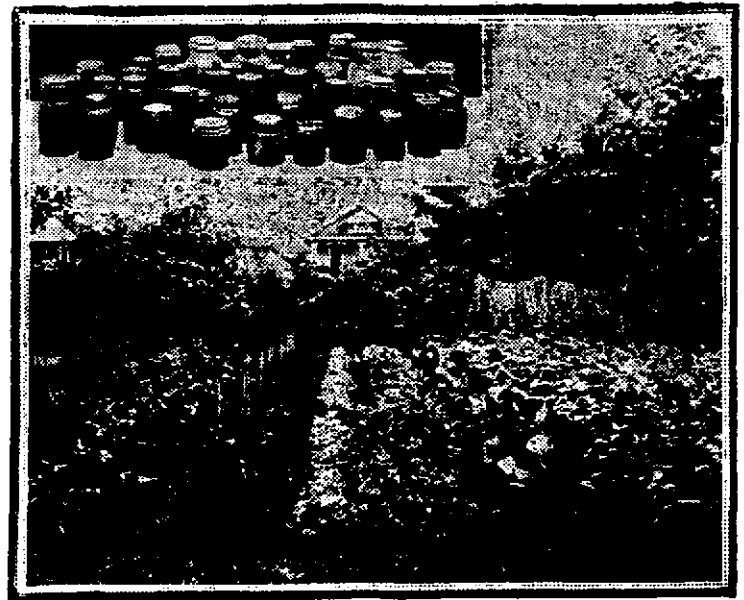

Upon the women and girls, and boys, too, in the homes of America rests the large and important responsibility of making sure that the surplus of vegetables, berries, and fruits grown this year is not wasted even in part.

It will be a patriotic service to can dry or otherwise conserve the large surplus of vegetables expected from the extraordinary efforts everywhere in America to increase production.

In every community in the country food is being produced in back-

ing of food, but there is an obvious personal advantage. Every housewife knows the cuts that can be made in table expenses by a larger well stocked with jars and cans of home-preserved fruits and vegetables. Furthermore the use of an abundant supply of fruits and vegetables is at all times essential to health. The problem of furnishing an adequate supply of food often is to be solved only by such conservation. The need for variety in the diet is met most easily and economically by the surplus of the abundant season preserved for the time of scarcity.

This is the foreword of a series of articles prepared by food-conservation specialists of the United States Department of Agriculture. The articles are designed not only to guide those who have never conserved before, but to help those who have had years of experience. Sim-

The Productive Home Garden Promises Not Only Fresh Vegetables for The Table, But a Surplus for Canning and Use Next Winter

yards and vacant lots that never before were used for this purpose. last year, according to the United States Secretary of Agriculture, the home-garden movement was estimated to have stimulated the planting of from two hundred to three hundred per cent more gardens than ever before had produced food in the United States. This year, it is expected even last year's record will be surpassed. Every family with available ground has been urged to plant and cultivate a home garden.

Eat all the vegetables and fruits you need, use them to the utmost to lessen your demand for other foodstuffs. But can, dry, brine or otherwise conserve all the surplus.

By conserving the surplus the home women and girls in the country and in the cities and towns will be doing their part to lessen the national demand for wheat and meat and the other foods that are needed in increasing quantities by our armies and the Allies.

Decrease Food Costs

Not only is there a national responsibility calling for the conserv-

ple, practical directions will be explained, proved recipes will be given, and every effort will be made to provide plain workable instructions. The articles to follow in this series will deal in detail with canning, drying, brining, pickling, preserving and jelly making. Those who wish detailed instructions at once are advised to write to the Division of Publications, U. S. Department of Agriculture, Washington, D. C., for publications on the subjects in which they are particularly interested.

CONSERVE SURPLUS FOOD

Increased planting of vegetables this year almost certainly will mean an unprecedented yield of fresh vegetables in the spring and summer.

This will mean plentiful supplies for summer tables and a large surplus.

This surplus, to be useful to America, must be conserved. It must be canned, dried, brined, or stored in the homes of America.

Home-conserved food means that the home will be more nearly self-sustaining and that the burden of transportation will be lightened.

Women who have never canned should now learn how; women who know how should prepare to do more.—U. S. Department of Agriculture.

ONLY FEW RESERVES FAIL TO MAKE GOOD

In Cases Where Boys Failed to Come up to Standard Blame Has Been Centered About Employer.

7,000 BOYS PLACED ON FARMS

Indianapolis, Ind., June 12.—Of the scores of boys of the boys' working reserve who were distributed among the farmers of Indiana only 11 have failed to make good. Of these eleven which returned to general headquarters, ten brought reports that the farmers did not give them the proper co-operation and did not treat them as if they were

a member of the family. When the boys were hired out, it was with the understanding that they were inexperienced but should be given the proper training while under the farmers' care.

One of those returned said that the farmer he was working for loaned him to a neighbor at lower wages than set by the reserves as the proper scale to be paid to the boys.

The eleventh of the boys who returned admitted that he was a complete failure at the work because he was unable physically to do the hard labor required of him.

Seven thousand boys have been placed on farms in the state, and with the closing of high school it is believed 5,000 more will be placed.

PREPARE FOR SUMMER CHURCH SERVICES

Union Services in Local Churches Will Begin June 30 and Continue Through July

FIVE MINISTERS TO SPEAK

The Rushville ministerial association has made arrangements for a series of union meetings to be conducted in the various churches of the city during the month of July.

The custom is one which has been observed during the summer for a number of years and beginning Sunday evening June 30 the services will be conducted for the following four Sundays. The initial meeting which will be held at the First Presbyterian church will be addressed by the Rev. Clyde S. Black.

The program as arranged for the following meetings includes an address on Sunday evening, July 7, in the Christian church by the Rev. John T. Aiken; Sunday evening, July 14 in the First Baptist church by Dr. D. Ira Lambert; July 21 in the Methodist church by the Rev. C. J. Bunnell and in the First United Presbyterian church July 28, the last of the series will be a sermon by the Rev. L. E. Brown.

THRESHING PRICES FIXED

Schedule for Harvesting Wheat, Rye and Oats Announced

Rush county threshermen have presented their schedule for the harvesting of oats, wheat and rye this summer. The price agreed for the threshing of oats was set at six cents per bushel, wheat eight cents and rye nine cents. Although the prices which were fixed by the threshermen are approximate, Marion Detrick, county agent, stated today that he expected them to hold through the season.

The case of V. E. Lewark of Glenwood against V. L. Hodges for \$150 and to foreclose a garage lien, which was filed in Fayette county, has reached here on a change of venue.

Powerful As Five Horses Costs Less Than Four Horses

Here is the kind of a tractor you've been looking for—one that not only plows, but does ALL farm work that horses can do, besides supplying power for belt work. Not a big, heavy, cumbersome tractor, that plows while your horses loaf and eat, then leaves the rest of the work for your horses to finish; but a tractor that does EVERY job a horse can do—does it better—faster—easier and cheaper.

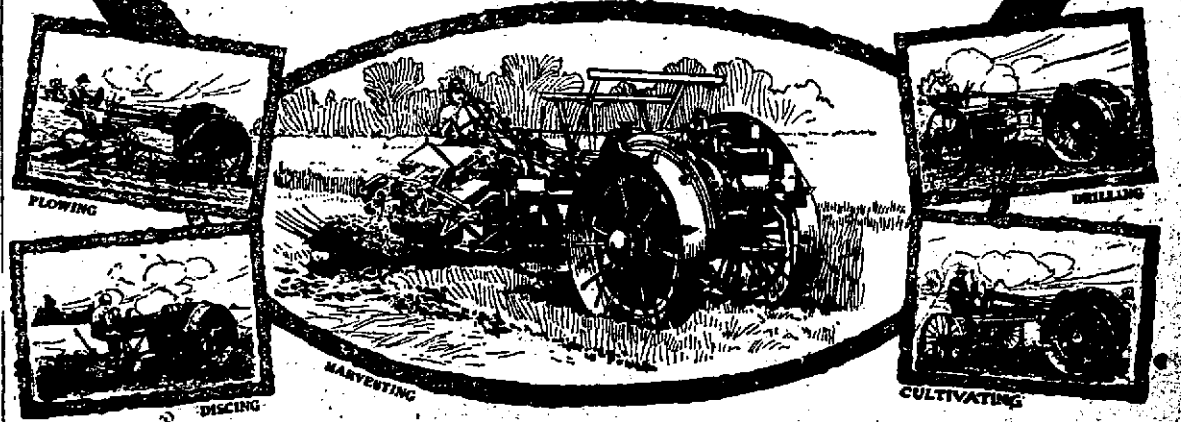

It costs less than four horses, yet it plows 4 to 12 acres a day; pulls two 14-inch bottoms; harrows, discs, plants and CULTIVATES corn or other hill and row crops—16 to 20 acres a day. It is as powerful as five horses and does the work of seven horses, easy to drive as a team—a REAL ONE-MAN TRACTOR and the only tractor that does all farm work without horses. It is so inexpensive to buy and operate that even 80-acre renters can profitably use the

ORIGINAL 2 WHEEL UNIVERSAL TRACTOR

Note the big advantage of its two-wheel construction—ALL ITS WEIGHT IS TRACTION-WEIGHT. ALL its weight goes into the PULL. That's why we can build it lighter—why we eliminate almost a ton of excess dead weight necessary on tractors of the three and four-wheel types. Then notice how handily it is hooked to the tool you use—the plow—harrow—cultivator—mower—binders, etc. Notice how you operate both tractor and implement from the implement seat. All your work is plainly in view. No craning or straining of your neck looking back to watch the farm tools—no extra man needed. Easy to back up with tool attached; easy to make quick and short turns; to work close to fences; to do all work as well and as easy as with a team.

No matter what size farm you own, if you have 80 acres or more, here is the tractor for you. If your farm is extra large, two MOLINE-UNIVERSAL Tractors will be cheaper than either horses or one large tractor. Write for our free catalog folder which tells all about this all-work, all-purpose low-cost, one-man tractor. See for yourself how it will solve the power and hired help problems on your farm.

WALTER G. DUKE
Phones 1592 and 1150. Rushville, Ind.

The Watson reunion was held at the home of Mr. and Mrs. J. M. Watson, south of the city, Sunday. The following guests were entertained and enjoyed a delightful dinner at noon: Mr. and Mrs. John Watson and family of Hortonville, Mr. and Mrs. John Mendenhall and family of Bakers Corner, Mrs. Flora Mendenhall of Noblesville, Mr. and Mrs. Harold Watson and daughter of Westfield, Mr. and Mrs. Emmett Fegley and daughter of this city, Mr. and Mrs. Virgil Thompson and son, Mr. and Mrs. Albert Horton and sons, Mr. and Mrs. Jink Stout and daughters and Harry Thompson of Milroy.

Mrs. J. L. Cowing was hostess to the members of the Woman's Missionary society of the First Presbyterian church yesterday afternoon at her home in North Main street. The regular program was carried out, consisting of Devotionals, under the leadership of Mrs. Laura Carmichael; a review of the second chapter of the "African Trail," brought out in an instructive and interesting manner by Miss Minnie Beale, and "Home Work and Cuba" discussed in all its phases by Miss Pearl Kitchen. A short business session ensued following the program.

Guests for three tables of Bridge were entertained by Miss Bertha Helm yesterday afternoon, at her home in West Fifth street. The company included members of the Tuesday afternoon Bridge club, and five guests, Mrs. O. M. Dale, Mrs. Fred Caldwell, Mrs. Claude Cambren, Mrs. Herman Tompkins and Mrs. Harry McMillin, who composed the extra table. After spending a delightful afternoon over cards, the guests were taken to the Cozy Cafe for lunch.

The meeting of the Ladies Aid society of the St. Paul's Methodist church yesterday afternoon at the home of Mrs. E. B. Thomas in North Morgan street, marked the closing of the society year. During the business session which opened the meeting, committees for the purpose of nominating officers and arranging programs for the coming year, were appointed by the president. Following the business program, a social hour ensued. The meetings will be resumed in September.

Mr. and Mrs. Frank Smith entertained at dinner yesterday, honoring their guests, Mr. and Mrs. Riley Clark and family of Hope, Ind., Mr. and Mrs. Clark returned home today.

All members of the Larline council, No. 296, Degree of Pahalontas, are urged to be present at the regular meeting tomorrow night, in the Red Men's hall as there will be degree practice.

The Willing Workers class of the St. Paul's M. E. Sunday school will meet with Mrs. J. F. Miller, Thursday afternoon at 2:30 at her home in 836 North Jackson street.

Mrs. Frank Capp will be hostess to the members of the Thursday afternoon Bridge club, tomorrow afternoon at her home in North Main street.

The members of the Thursday Bridge club will be entertained by Mrs. Carl Gunning at her home in West Fifth street, tomorrow afternoon.

The members of the Yomo club will meet with Mrs. Claude Smith tomorrow afternoon at her home at 314 West Fourth street.

Red Cross Notes

The Dr. Gilbert class of the Main Street Christian Sunday school will sew all day at the Red Cross headquarters tomorrow. A good attendance is desired as there is much work to be done.

Social Calendar

Thursday

Thursday Bridge club with Mrs. Carl Gunning in West Tenth street in the afternoon.

Yo-Mo club with Mrs. Dick Smith in West Fourth street, in the evening.

Willing Workers with Mrs. J. P. Miller, in North Jackson street, in the afternoon.

Larline council No. 296 D of P. in Red Men hall, in the evening.

Thursday afternoon Bridge club, in the afternoon, with Mrs. Frank Capp, in North Main street.

The beautiful country home of Mr. and Mrs. William Alsmann, north of Arlington, was the scene of a very pleasant affair Tuesday evening when they entertained one hundred and twenty guests in honor of their son, Private James A. Alsmann, Ambulance Co. 34, of Ft. Oglethorpe, Ga., who is home on a five days furlough.

The rooms of the home were appropriately decorated with the national colors and the same color scheme was carried out in the refreshments of ice cream and cake which were served in the dining room at the close of the evening. The table was centered with a large bouquet of flowers intermingled with flags, and tiny silk American flags marked the places of the guests. The guests from a distance were, Mr. and Mrs. James G. Alsmann and Mr. and Mrs. Frank Lashley of Centerville, Ind., the Misses Blanche Herthel, Bertha Buescher and Margaret Pitts of Morristown, Dr. William Smith and Walter E. Smith of Rushville and Gail Foley of Greensburg.

SERVICE COMMITTEE IS GETTING RESULTS

Delay in Sending Policies to Families of Enlisted Men is Rectified in Many Cases

LARGE AMOUNT OF WORK DONE

The effective work of the Red Cross committee on Home Service is already bringing results in the families of Rush county soldiers concerning the issuance of insurance policies.

As head of the work in the county, George C. Wyatt, upon being informed of the delay in sending out policies to the families of Rush county enlisted men, has referred the matter to the state committee on Home Service and an immediate response indicated that the policies were being sent at once to the claimants.

Insurance policies are being issued from the headquarters of the bureau at an unusually rapid rate and already there have been 1,916, 153 applications for insurance by persons who come within the class of those entitled to apply for insurance. These applications total \$15,649,249,000, with an average per person of \$8,167. There are on an average of 10,000 applications received daily.

Insurance policies are being issued at the rate of 12,000 to 13,000 per day and in the immediate future it is expected that the rate will be raised to 25,000 per day. On May 4 the record showed that 590,000 certificates have been issued. If the applicants did not indicate the person to whom the certificate is to be issued, it is filed at the Insurance Bureau; otherwise the certificates are being sent to the person indicated as rapidly as possible. There is no need to worry, however, on the part of any beneficiary, as the certificate is not necessary to the claim.

BUY THRIFT STAMPS

BUY YARN WITH FUNDS OF RECENT EGG DRIVE

Members of Mothers' Club Are Knitting Garments For Soldiers Who Have No One to Care For Them

STILL \$40 LEFT IN THE FUND

As result of the egg drive which the members of the Rush county war mothers association conducted some time ago, they have been able to purchase more than fifty dollars worth of yarn and still have more than forty dollars in their treasury.

Yarn was distributed among the members of the club a few days ago to be knit into warm garments for soldiers who have no one to send such articles to them. Names of soldiers for whom the garments will be knit are being submitted to the women, who expect to complete numerous articles of clothing before the winter season opens up.

The organization is proving to be one of the most effective of the War Mothers club in the state and already the membership has mounted to numbers which rival the rolls in many larger cities where similar clubs have been started.

RUSHVILLE WOMEN IN LOCAL FACTORIES

Are Taking Places of Men Who Join Colors and Prove Most Efficient in New Work

TWO PLANTS EMPLOY WOMEN

For the first time in the history of Rush county, women are being employed in the furniture factories in the same capacity as men in similar lines of work.

A half dozen women have been employed at the Parke furniture factory for some time, working in the sanding, varnishing and packing departments and displaying such efficiency that plans have been made in other local factories whereby the vacancies may be filled by women workers. Several applications have been made for work in the Rushville furniture factory where the women will be working in a few days. Officials in both factories expect to increase their number of employees gradually, with women, until the factories full quotas of employees have been regained.

During the winter and spring the number of available workmen in local factories have greatly decreased due to the number who have left in order to enter military service, and before the plan was conceived whereby women employees might be substituted, the institutions faced a grave situation.

LAUNCH MOVE TO RE-ELECT PRESIDENT

Continued From Page 1

democratic party is to win the war. The fate of true democracy everywhere depends upon it being won. Its object is to free the world once for all of the threat of violence which must hang over it so long as there is anywhere an autocratic government which can disturb its peace and dominates its fortune. The outrages against right which Germany has committed has directly touched our citizens and our own liberties and Germany must be brought to terms by such a victory as will leave no doubt in the minds of her rulers and her people as to what forces control mankind."

Planks in the platform declare for the following:

Repeal of the law providing for teaching of German in the public schools.

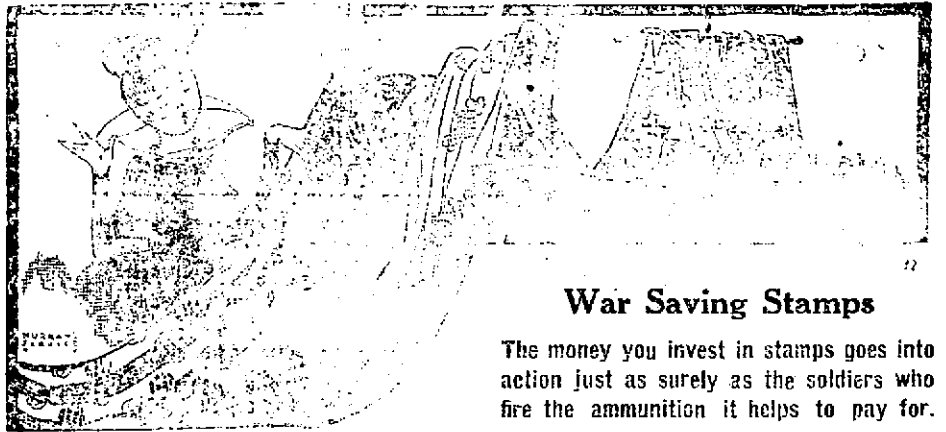

Adoption of the federal woman's suffrage amendment and if that should fail, amendment of the Indiana constitution, giving equal franchise rights in "recognition of the war work of women."

Preparation for the reconstruction period following the war by provision for returning soldiers and fullest developments of vocational education for training those which are disabled.

A budget system in the federal government.

Opposes abolishment of certain state officers as recommended in the republican platform.

Raising the level of labor condition and greater provision being

War Saving Stamps

OUTLINES PARTY ATTITUDE ON WAR

Speaking at Democratic State Convention Today, Marshall Says Confidence in Wilson Essential

BERATES THE REPUBLICANS

Scores Vote of G. O. P. Delegation on Espionage Bill and Party's Stand on German Language

(By United Press.)

Indianapolis, Ind., June 19.—Calling upon the people of the nation for confidence in President Wilson. Thomas Riley Marshall, vice president in delivering the keynote address at the opening of the state convention of the Indiana democrats today, outlined the attitude the party will take in regard to the war in the coming campaign. He said:

"What the democratic party stands for is to win the war as soon as it can be won and it holds that to the speedy winning of it these are essential: conviction of the justice of the cause in which we are engaged; a fixed and definite end to be obtained; the whole-hearted, disinterested, political and patriotic sacrifice of personal ambition, party preference and individual success to the object's attainment and absolute confidence in the commander-in-chief."

The vice president spent considerable time discussing the recent republican convention.

"Does the republican party in Indiana reject with scorn the vote of the German sympathizers in this state?" he asked. "If so, why didn't it have the courage to say that this is an English-speaking people; that nothing so tends to unite a people as the use of a common language and that, in building up the interests of a cohesive American citizenship, it proposed to see to it that the German language was no longer taught in the schools of Indiana. I believe that the party is keeping silent in the hope of the liberal vote and that of the German sympathizer. A man is not a German because he has a German name or because he has German blood in him. He is a German whatever his name or blood, if he wishes the house of Hohenzollern to triumph. I of course want my party to win. At the risk of being read out of it, I beg you to vote against any democrat who is not wholeheartedly behind the president of the United States and the way he proposes to win the war: who is not in favor of taking the German language out of the schools of Indiana and welding into a united people, by the use of a common language, all those who dwell within our borders."

"We are to have politics this year in Indiana, but politics this year must be patriotic, as well as partisan in character. It must be the kind of politics which wholeheartedly gets behind that colossal figure of these stormy hours, the man whom providence has set upon the mountain peak of duty, desire and endeavor, with whom we can win, without whom the world hope must perish—Woodrow Wilson, captain general of the armies of freedom, Admiral of the seven seas."

Scoring the vote of the republican congressional delegation on the espionage bill, Marshall pointed out to the ease of where an agitator who had declared "any young man that would enlist or volunteer for the United States should be taken out and horsewhipped," was freed in federal court and yet, "when congress gave the country additional legislation to cover cases of this kind, on the final roll call the two

senators from Indiana voted against the legislation."

Turning to the complaint of the republicans that they are not given a hand in running the war, Marshall stated:

"These critics are the men who seemingly believe, although they have no confidence in the ability of the president of the United States to call to his aid such persons as he believes can aid him in the prosecution of the war, that they, by a partisan election, can hand him advisors and counsellors in whom he will have confidence. This is humanly impossible. The president has called to his assistance former President Taft, former Justice Hughes, Goethals, Hoover, Stettinius, Rosenwald and hundreds of individual republicans and I have hope and confidence that he will call hundreds of more, but he calls them as individuals and not at the behest of a party caucus or a partisan election."

"The real controversy between the republican politician and the president is this: the president chooses to select by hand his republican assistants while the organization demands that he take them machine-run."

"Parties do not enlist. Men do. Comparative zeal of equally loyal men must be judged by the relative time given by them to the war and to politics. There were two state chairmen in Indiana, one democratic and one republican: one gave up his political job to devote his full time to war work; the other gave up his war work in order to engage in politics and the governor of Indiana wrote him: 'I have a feeling too, that you have found it necessary to resign as chairman of the state council of defense in order to perform more important duties.'"

Discussing the criticism of the war work of the administration, the speaker said:

"Some republican politicians are doing now what some democratic politicians did during the war of the rebellion, boasting of their patriotism but indulging in never-ending criticism of the administration in its prosecution of the war. Similar criticism struck Lincoln: it is now gathering in storm clouds around Wilson."

"Wherever two or three republican politicians are gathered together there are loud protestations of patriotism and devotion to the commander-in-chief, but criticism of many things which he and his subordinates have failed to do. Errors and omissions are aired, analyzed and magnified. These critics claim they are loyal and wholeheartedly in support of the war, but—and in this 'but' lies the danger to the successful prosecution of the war. There must be no 'buts.' There must be the same unselfish loyalty to the president of the United States in this dangerous hour as was expressed by the Scottish woman for King Charles when she said she was loyal to the Crown of Great Britain though that crown hung on a gooseberry bush."

Marshall, in speaking of the statement made by Senator Watson at the republican convention in which the senator declared that the United States has no interest in the form of government which exists in Germany said:

"It may be that we have no interest in the form of government which the German people may desire but for myself, I say that we have an interest in the people who rule Germany and that until we have stopped murder and rapine and pillage and terrorism on land and sea, the House of Hohenzollern will be the common enemy of all right thinking Americans. Theory or no theory, we are not going to let that House buy the bankrupt stock of

CITY AND TOWN MEN ARE CO-OPERATING

Volunteer to Work on Farms During Harvest Because of Shortage of Labor

WHEAT CUTTING IS GENERAL

Receiving hearty co-operation on every side from town and city residents, Rush county farmers expect to be able to harvest their 1918 crops with little inconvenience from the nation wide labor shortage.

Although A. L. Stewart, county enrolling agent for farm labor work has not conducted an intensive campaign, enlisting the services of farm assistants, the response was unusually generous and between the business men of the city and the younger men and boys—members of the Boy Scout troops and Boys Working reserve, the agriculturalists expect to be able to take care of the crops with the efficiency which will total a minimum loss.

The men in various down town business establishments have agreed to spend so many hours each day on the farm and by dividing up the time in this manner, each store has the value to a farmer of two farm hands, daily. Their work thus far has proven satisfactory and they have entered into it with the enthusiasm which guarantees the success of the plan in the county.

Wheat cutting will be general all over the county before the end of the week. It was started on Frank Boring's farm on the line between Anderson and Orange township, Monday afternoon. F. M. Hewitt of the same neighborhood, began cutting rye.

Owing to the scarcity of petrol in France and Belgium the American Red Cross has been compelled to spend 30,000 francs in installing an electric lighting plant at Chartreuse, which accommodates 1,000 refugees, of which 250 are segregated children.

hell and force upon unwilling and defenseless people, all of its horrors."

"There is but one vital issue before the American people and that is winning the war," continued the speaker. "It is not a democratic or a republican war but it is being fought under a democratic administration and that administration will, in accordance with the historic mind of the republic, be supported for many reasons by democrats and republicans alike."

"In the hour of war no man or no paper can afford to be independent. He who is not for the president, is against him. Suspect the man who is always talking about his patriotism and at the same time shedding bitter tears because his duty just forces him to point out how weak the president is in choice of men, how feeble he is in the execution of his military operations."

"Now is the time when men must answer the question as to whether they are wholeheartedly with the commander-in-chief or whether they are with the party seeking mainly political preferment."

"A thousand parties may meet and adopt a thousand patriotic platforms: the republic may mobilize all of its money, all of its men and all of its resources, and yet the chance of failure will be great if, behind all the party platforms and mobilized strength of the republic, you do not put confidence of the American people in the director-general."

"What is lamentable in republican organization patriotism is its duplication in American life of the Prussian idea. It is not needful to be born in Germany nor of German blood to have a Prussian mind. My complaint has been, not that the republican party did not rule well, but that it ruled along unscientific lines. To my mind, a republican commander-in-chief could rule well in such a conflict as the one in which we are now engaged. The democratic commander-in-chief is ruling well. He has the confidence of the rank and file of very many of the republican leaders but he has the enmity of the Prussian republican, the man who is cocksure that, no difference what the issue or the circumstances, the republican party was born to rule and all democratic rule is bad just because it is democratic. Let us understand that honesty and ability and loyalty are individual and not partisan."

sian idea. It is not needful to be born in Germany nor of German blood to have a Prussian mind. My complaint has been, not that the republican party did not rule well, but that it ruled along unscientific lines. To my mind, a republican commander-in-chief could rule well in such a conflict as the one in which we are now engaged. The democratic commander-in-chief is ruling well. He has the confidence of the rank and file of very many of the republican leaders but he has the enmity of the Prussian republican, the man who is cocksure that, no difference what the issue or the circumstances, the republican party was born to rule and all democratic rule is bad just because it is democratic. Let us understand that honesty and ability and loyalty are individual and not partisan."

Doctors Advise Spring Tonics

Say There is Nothing Equals Iron and Phosphates

Experienced Doctors claim that everyone should take a good tonic in the Spring, that during the cold winter months we all eat too much meat, fats, heavy foods and too little fresh vegetables, that the entire system is clogged up, over loaded and over worked, causing thin, impure watery blood and that tired, nervous feeling, pimples and bad complexion.

Honest doctors all over the land have found and are recommending and prescribing phosphates and iron as their spring tonic for the blood and nerves, they say it removes all impurities, unclogs the channels and sends the rich, life-giving blood through the veins, renewing health, strength and nerve force as nothing else will.

If you are all in, run down, fagged out and your nerves all shot to pieces and the joy gone from life, take Phosphated Iron, the red blood and nerve builder. It will make a new man or woman of you, make you feel like doing things again, renews that youthful feeling, you can almost feel yourself coming back. Try Phosphated Iron today, it has helped thousands and will not disappoint you.

To insure physicians and their patients getting the genuine Phosphated Iron it is put up in capsules only, do not allow dealers to give you pills or tablets. Insist on capsules.—WYTMAN & WILSON and leading druggists everywhere. Rushville, Ind.—(Adv.)

SUBSTITUTES FOR BEEF TO BE USED

Food Administration's Proposal is in Lieu of Re-establishment of Meatless Days

SURPLUS IS BEING REDUCED

Restrictions do Not Apply to Beef Hearts and Livers or Veal, Mutton or Lamb

The substitution of fresh pork, bacon, hams and sausage for beef products as a direct service to our army and the allies, is the proposal made by the federal food administration in lieu of a re-establishment of the meatless days. The Food Administration announces that the demands for beef for this summer from the armies and civilian populations of Europe, are beyond the present surplus of the United States.

Effective at once, the food administration in a telegram to Dr. Harry E. Barnard, federal food administrator for Indiana, which has been sent on the local administrator, requests an order to all hotels and restaurants that they refrain from placing upon their menus, or service, boiled beef for more than two meals weekly; beefsteak for more than one meal weekly; and roast-

ed for more than one meal weekly. As a further step in the conservation of beef, the food administration asks householders under no circumstances, to buy more than one and one-quarter pounds of clear beef weekly; or one and one-half pounds, including bone, per person in the household.

The food administration's telegram says further, "The public will realize that the changing conditions of production from season to season, the changing situation in shipping, and therefore of the markets available to the allies, and the increasing demands for our growing army with the fluctuating supply of local beef in France, all make it impossible to determine policies for long periods in advance. We have recently asked for economy in all meat consumption. We wish now to emphasize further reduction of beef by the substitution of pork. It is anticipated that it will hold good until September 15, and the co-operation of the public is most earnestly requested."

Restrictions on beef consumption do not apply to hearts, livers and beef by-products, it is announced by the Federal food administration. The further statement was made by Dr. Harry E. Barnard, that the limitations do not apply to veal, mutton or lamb, which are not exported. Dr. Barnard quoted a telegram from Herbert Hoover saying, "as to any misunderstanding of the apparently large figures of beef in storage sent out by the department of agriculture, beef in storage has decreased from 346,000,000 pounds on January 1 to 227,000,000 pounds on June 1. Of this latter amount, about 130,000,000 pounds is in process of preparation and shipment for allied and army use. The balance represents less than three days' supply to the country."

ONE GERMAN ALIEN HERE TO REGISTER

Mrs. Mary Nestle Reports to Post-office to Comply With Government Regulations

ONLY ALIEN WOMAN KNOWN

Recent Registration of Alien Men Disclosed There Were None in Rush County

Mrs. Mary Nestle who reported at the postoffice here yesterday for registration as a German alien woman, will be the first Rush county woman to register in compliance with the regulations issued by Attorney General Gregory.

The registration began Monday morning and will continue until Wednesday, June 26. The fact that there were no alien men in the county, as revealed in the recent registration of alien men, led the authorities to believe that the number of women would also be counted in very small numbers and thus far the reports from the various post-offices through the county indicate that there are no alien women.

Postmaster G. P. Hunt is in charge of the registration and in order that there will be no difficulty arising later, advises women who are in doubt as to their status, to make certain as to whether or not they will be required to register before the time limit has expired. Women who fail to comply with the regulations, may be interned imprisoned or deported.

American women who have married German aliens will also be required to register, under the regulations, unless they have taken steps to get a return of their original citizenship status. Women of German nationality who have taken out American citizenship papers need not register. The regulations also hold that a wife of a German who has become naturalized and has completed the requirements of American citizenship is a citizen and need not register. A German woman who married an American before April 6, 1917 is also outside the class required to register, while special provision is made in the regulations for the treatment of natives of Alsace-Lorraine and of Schleswig-Holstein.

DWELLING IS A TOTAL LOSS

Insurance on A. L. Gary's House and Goods Amounts to \$2,800

As the result of the fire which occurred at the home of A. L. Gary in North Harrison street yesterday afternoon, the dwelling is a total loss but some of the furnishings were saved. An attempt was made to get the fire under control before it had reached the front part of the lower story, but it was unsuccessful because of the great headway which the fire had made before it was discovered. It is believed that the insurance of \$1,800 on the house and \$1,000 on the furnishings will about cover the loss.

The case of the First National bank of Lewisville against Edgar Herbert and William Summan for \$225 on a note, has been dismissed in the circuit court and the costs paid.

FIRE PREVENTION URGED IN COUNTY

Food Administrator Lovett Appeals to Grocers to Observe Preventative Rulings

MEETING OF CITY GROCERS

All Down Town Merchants Are Asked to Observe Same Restrictions During Summer

County food administrator M. F. Lovett of Carthage was present at the meeting of Rush county grocers yesterday afternoon, and in a short address impressed upon them the necessity of taking steps for fire prevention.

Especially during the dry, hot summer months the fire losses are always increased and during the present crisis, when food means the winning of the war, great precaution should be taken at every turn to keep down the possibility of a loss in food of any kind.

Rush county food handlers were warned by the food administrator that all waste and rubbish which accumulates in a place of that kind should be taken care of and that the insulation of the wiring systems should be carefully gone over at once as a preventative measure.

In co-operation with the fire preventative plans as advanced by Mr. Lovett, he issued an appeal to other merchants especially in the down town districts, to take the same care of fire prevention so that in preventing a loss by fire in their places of business, there would be no danger of the fire spreading to the business places of food dealers, as is often the case in down town fires where the buildings adjoin one another.

Following the address of the food administrator, the grocers met in a round table discussion concerning various conservation measures and the sales of foods coming under the substitute rulings. Because of the efficient work of the executive food department of the county, the county food merchants and the people who patronize them are progressing smoothly without any of the difficulties concerning prices and substitutes which have developed in so many vicinities.

SPEAKS AT I. O. O. F. HOME

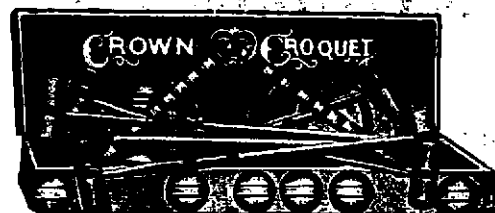

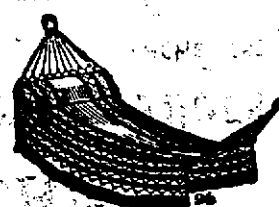

The Rev. C. M. Yocum Delivers Address to Local Delegation

The Rev. C. M. Yocum of Kansas City, former pastor of the Main Street Christian church here, delivered a short address at the Odd Fellows Home in Greensburg yesterday when 150 members of the Odd Fellows lodge of this county visited the home. C. E. Lockhart superintendent of the institution delivered the welcome address after which William Ehrhardt of Greensburg, grand warden of the Indiana grand Lodge of Odd Fellows talked to the visitors. An inspection of the home was followed by a basket dinner which was served on the lawn of the home.

The Look Out society of the M. P. church of New Salem will hold a festival on the church lawn, Friday night.

DO IT TOMORROW

is the motto of the person whose plans are never executed, whose hopes are never fulfilled.

DO IT TO-DAY

is the imperative call of the Government. Your individual obligation to the country, and the opportunity for personal benefit unite to urge immediate action. Delay means disaster.

BE READY

to meet your own needs and the demands of the nation by saving every possible dollar.

Do you want to buy WAR SAVINGS STAMPS?

Do you desire to open a SAVINGS ACCOUNT?

Rushville, Indiana.

Why risk a broken arm from backfire?

The fact that you have been lucky so far, won't ease the pain any, or pay your doctor bill, when you do get hurt.

WILL YOU BE NEXT?

Manufactured by
BEAR MFG. CO., Rock Island, Ill.

FORD CAR CRANK RELEASE

No More Broken Arms!—No More Doctor Bills!

Just what every Ford owner has been waiting for—A POSITIVE CRANK RELEASE. You can now crank your Ford with absolute safety, and without fear that your motor will backfire and break your arm or wrist. Crank must positively release—No POSSIBLE CHANCE for the crank to whip around backwards and knock your arm off. How many do you know in your own neighborhood who have carried their arm in a sling, and unable to work for a couple of months because their crank caught them? You will find them in every community. Ask them if it pays. WILL YOU BE NEXT? It might get you today—maybe never. But here's the point. Can you afford to run the risk? Will you take the chance for \$5.00?

Get Yours Today — Tomorrow May Be Too Late.

THIS DEVICE DOES NOT INTERFERE WITH YOUR SPINNING THE MOTOR, and can be easily attached to the regular Ford crank in 20 minutes. No holes to drill—no mechanic needed. Not An Accessory—But An Absolute Necessity! If You Want To Be Safe From Backfire. At your dealer or mailed direct on receipt of \$5.00.
